

Lean-Agile Leadership and The Oz Principle

Speaker: Joe LaTorre

Session Abstract:

In this day of Digital Transformations Lean-Agile Leadership is an important and pivotal skill to have and apply. Which begs the question: Are the facets of Lean-Agile Leadership unique to an agency transforming itself using Lean, Agile and Systems Thinking practices, or are they universal in nature? What practical advice can be shared to make leadership actionable? Let's explore some of the facets of this style of leadership and try to answer those questions.

Session Learning Objectives:

1. Discover which facets of Lean-Agile Leadership are unique and apply to the Lean-Agile world, and which are universal in nature.
2. Explain How the Accountability Process described in the book "The Oz Principle" by Roger Connors, Tom Smith and Craig Hickman" can be applied to everyday situations for actionable behavior by leaders.

Joe LaTorre, Sr. Agile Transformation Consultant
