

Lean Portfolio Management and Government + TBM

Speaker: Richard Knaster

Richard Knaster, SAFe Fellow, Methodologist, Principle Consultant

Richard has more than 30 years' experience in software and systems development in roles ranging from developer to executive, and has been leading large-scale Agile transformations for well over 15 years. Richard actively works on advancing SAFe's Lean-Agile methods as a SAFe® Fellow and Methodologist. As a principal consultant, he is passionate about helping organizations create a better environment to deliver value, improve quality and flow, and be more engaging and fun. Richard is also co-author of *SAFe® Distilled: Applying the Scaled Agile Framework for Lean Software and System Engineering*
